## COURSE OUTLINE

### About Us

Darwin Human Resource & Computer Academy is a Northern Territory owned organisation committed to successful training through quality management practices and procedures. We are a Registered Training Organisation with accreditation under the Australian Skills Quality Authority (ASQA), providing training in nationally accredited training packages and units.

Since inception in 1986 we have been able to offer flexible and quality training in professional development as well as computer training.

Our team of trainers is highly qualified with a wide-range of business and training experience in management, adult education, finance, retail, health, human resources and business administration.

**Online—Enrol and start Today!**

### Why this course is so good....

At Darwin Human Resource & Computer Academy we recognise that all participants have their own work and personal commitments, therefore we have scheduled the course over a twelve month period providing sufficient time to attend to each of the unit assignments.

The course is delivered using an exciting online training platform allowing students flexibility with their study commitments.

### Support for Students

The Academy is well known for the high level of support that students are offered throughout their studies. Every student has access to their Trainer & Assessor to support and to guide them every step of the way.

We offer training and assistance sessions every Wednesday & Thursday from 4pm - 5pm.

### Your Investment?

As a participant, you receive:

- Electronic Workbooks
- Nationally Accredited and Recognised Diploma
- Facilitator Support and Access

**Duration:** Online 12 months to complete

**Investment:** \$3,500 or \$445 for individual units

### Training Territorians since

## Brief Descriptor

This qualification reflects the role of individuals who apply project management skills and knowledge. They may manage projects in a variety of contexts, across a number of industry sectors. They have project leadership and management roles and are responsible for achieving project objectives. They possess a sound theoretical knowledge base and use a range of specialised, technical and managerial competencies to initiate, plan, execute and evaluate their own work and/or the work of others.
